

Project Guidelines:

- **PROJECT REPORT (ONE SOFT COPY PER GROUP, USE PDF FORMAT)**

Cover Page

- Give Title: Final Term Project Documentation
- Project Name
- Group Members NAME, ID and Contribution (contributed percentage and topic names)
- Course Name and Section

Project Updates

- Based on feedback of midterm project report document the changes you made in this section
- No need to include anything from midterm project report that has not been updated
- No need to include any documentation regarding issues with formatting
- Only technical parts that lacked from the midterm project report need to be resubmitted with correction
- If you made no updates include the **heading:** *Project Updates* but **write:** We received feedback on midterm project report but we decided to ignore the feedback and made no updates to our work.

Project Proposal

- Explain the project you are proposing
- For this section search all resources accessible to you and utilize accordingly

Class Diagram, Use Case Diagram, Activity Diagram

- Draw the Class Diagram, Use Case Diagram and Activity Diagram of your proposed system
- You already learned how to draw these diagrams in OOAD course (see UMLDiagramsTutorial for reference)

Schema Diagram

- After normalization draw schema diagram with proper annotations
- For reference see Schema.pdf

User Interface

- You can use any programming language to do this task (Java, C# etc.)
- Make sure to include your midterm interface design screenshots and final term interface design code screenshots in this report
- During viva and verification session this section will be verified

Database Connection

-The created User Interface must be connected to the database you have created

-During viva and verification session this section will be verified

Query Writing (Write down the question and the answer. Give full screenshot of the Oracle 10g Homepage that contains the answer and result)

-All screenshots **MUST** include the **DATE** and **TIME** feature from the screen of the machine (PC, Laptop etc.) used

-2 exception handling

-2 implicit locking

-2 explicit locking

Relational Algebra (Write down the question and the answer.)

-5 relational algebra (see RelationalAlgebraTutorial for reference)

• PROJECT VIVA AND VERIFICATION

-MUST bring at least one laptop per group

-During Viva and Verification session you must be prepared for verification by showing your work in installed Oracle 10g in your personal laptop

-During Viva and Verification session you must be prepared for verification by showing your work on User Interface and its connection with Oracle 10g in your personal laptop

-VIVA is individual i.e., the group members will get marks based on their individual performance

-VIVA is MANDATORY for all group members

-Questions will be asked regarding project to every group member

-Questions will be asked regarding course related topics to every group member

Important Dates:

1. Report Submission Deadline (Upload, Softcopy):

To Be Announced (TBA) (After discussion with all of you in the next week either 23rd June 2025 or 24th June 2025 or 25th June 2025 will be fixed)

2. Project Viva and Verification (Student MUST bring FINAL TERM EXAM PERMIT):

To Be Announce (TBA) (After discussion with all of you in the next week either 23rd June 2025 or 24th June 2025 or 25th June 2025 will be fixed)

3. Check the NOTICE section of your VUES account regarding room number and your project group time slot on **19th June**.

Special Instructions:

1. If **all** group members **agree** a project group can attend Project Viva and Verification sessions (**Project Report must be submitted in the link before the session starts**) **prior** to our fixed project submission date. In that case, the course teacher must be approached by all the group members **during class time (no later than 27th May)** and be formally requested to do so. The course teacher will then provide an alternate timing for your Group.
2. If **all** group members **agree** a project group can attend Project Viva and Verification sessions (**Project Report must be submitted in the link before the session starts**) **after** our fixed project submission date. In that case, the course teacher must be approached by all the group members and be formally requested to do so. The course teacher will then provide an alternate timing for your Group. In case of late submission **up to 10 marks** may be deducted if the teacher feels the reason is invalid. Late submissions are allowed till **5 days** from actual project submission date.
3. Request for **online** sessions will **NOT** be entertained.
